Tennis as an amateur sport is growing in popularity. It is a healthy pursuit bringing out the competitive spirit in young and old and providing recreational activity to enhance good health as we age. It also promotes good sportsmanship in our youngsters, with competitive play, in a safe environment, and TTC wants to be there the whole way - even at dusk with some added Low-Energy LED lighting on Courts 3-6.

Honourable Obby Khan, Minister of Sport, Culture, and Heritage, and the **Honourable Heather Stefanson, MLA Tuxedo**, announced the Arts, Culture and Sport in Community Fund (ACSC), Small Capital and Special Initiatives Funding approval to support the *Tuxedo Tennis Club Hitting Wall, Court Lights and Spectator Area Improvements Project*. This is part of a club initiative to enhance the tennis facilities, and, is the result of close to 3 years of work, planning and project opportunity development. This ACSC program came into focus recently by several Board members as an opportunity designed to support community facilities such as ours.

TTC is pleased to receive **\$248,945.00** in funding through this grant program, which is designed to strengthen arts, culture, and sport engagement in our province and support enhancing opportunities for Manitobans to participate in programming and activities in healthy lifestyles.

Our hitting wall project comprises Phase 1 of the new project scope supported by this ACSC grant. The hitting wall is on schedule to be completed this summer, and we will begin the detailed planning, member input, design and preparations for Phase 2 works to begin next summer.

We still have our work cut out for us - contact the board to see how you can help out and definitely stay tuned for more project announcements!
